

CONE LIGHTS

APOLLO LIGHTING
ELECTRICAL SERVICE

Powering Your Event

Looking for something a little bit different to light your way?

Use our Inflatable Cone Lights!

Giving usable light in a 15 metre radius, Cone Lights offer you that something different to light entrance areas or highlight places of importance.

Our Cone Lights come as standard with a 3 metre cone, 4 and 5 metre cones are available on request.

Cone bases also have the ability to use different shapes to give you a different look (different shapes by negotiation).

Like our Crystal Balloon Lights you can apply cut lettering to the skin for information or directions or sponsor acknowledgement.

With a Cone Light you can use either Led colour changeable lighting (in dark areas only) or 150W MH lamps for a bright white or fixed colour light.

Technical specifications:

Air-inflated cone or shape (built-in fan) - Indoor or outdoor use - Water and Wind resistant balloon
- 360° coverage - Compact, durable - Fast one person set-up & operation

Diameter	Type of lamp	Power Req 240V 50Hz	Lumen	Area	Wind Resistance
